Uses

For symptoms of dry mouth; dryness or feeling of stickiness, stringy saliva, bad breath, increased thirst, sore throat, dry lips, difficulty speaking, chewing or swallowing, change in taste perceptions, oral health problems such as caries or oral thrush.

Format and Ingredients

Mouthwash containing:

Sodium Fluoride (910ppm), Betaine, Glycerine, Malic Acid,

Dosage

Gently squeeze the bottle to fill the dosing cap (10ml), swish vigorously for one minute then spit out. Use 1-2 times daily at a different time than toothbrushing, or as recommended by a dental professional. Also available in an unflavoured variant for more severe cases of dry mouth.
