Pack size

50ml

RRP

£15.00

**Legal Status** 

MD

A freezing wart and verruca removal device based on the cryotherapy method.

# Format and Ingredients

Freezing agent comprising a mixture of dimethyl ether and propane

## Dosage

Adults and children over 4 years: a single freeze is sometimes enough, although up to 3 applications may be used 2 weeks apart for stubborn lesions such as some verrucas. Under 4 years: not to be used.
