Uses

For the treatment of inflamed athlete's foot and candidal intertrigo (sweat rash).

Format and Ingredients

Cream containing:

Miconazole Nitrate 2% w/w, Hydrocortisone Acetate, equivalent to Hydrocortisone 1% w/w,

Dosage

Adults and children 10 years and over: apply twice a day to the affected area, rubbing in gently until absorbed. Maximum treatment period: 7 days. Elderly: Use sparingly and for short periods of time due to natural thinning of the skin. Children under 10 years: not to be used, unless prescribed by a doctor.
